PATIENT POTLIGHT

Sabrina Pretorius Trip To Africa

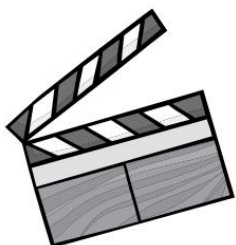

"My Brother, Grandpa, and I went to Africa In July, and whenever we would stop, everyone, especially the children, were very interested in my braces. They would try to sneak around the truck when we would stop to try and see them. It seemed as though they made a game out of it.

See who could go the furthest without being seen, and if they got caught, run back to the other side of the truck. I got a lot of questions asking if i could take them off and if they hurt. The picture is of me and my brother standing in a line with Masai Teens who had just finished singing and dancing."

Excellent!

Adrien Howard shows off his felixibility following a ceremony in which he was awarded a black belt by Master John Rangel of the Tiger Taekwondo Academy. The 11-year-old is the first pupil to earn the honor at the academy located in Marion.

Jeanie Alexander won 4 tickets to The Splash House for guessing how many cars were in the jar! Good job Jeanie!
